Director Note – *You can design and create and build the most wonderful place in the world. But it takes people to make the dream a reality.* – Walt Disney

I was asked recently why the Senior Center programs couldn't use existing resources and the different buildings around town—to which I immediately replied, "that is what we are doing (!) and for both staff and patrons it is inconvenient, unsafe for many, and a complete disconnection from the hoped-for benefits of a Senior Center. Why is it so important for us to have a new, standalone building? A dedicated facility for a Senior Center offers *appropriate* welcoming opportunities to the many seniors that we have and anticipate will enter the building. Parking close enough to the building and with convenient access into the building without competing for parking spaces or navigating other cars in the area is important for safety and to make our visitors confident and comfortable. Given just the number of programs we are offering now in multiple sites all gathered in the same building, the 'traffic' in and out of the building on a busy day would be 60-100 people – many with their own cars. Safe walking and access into elevators and bathrooms; unfettered guidance to different rooms in the building for the various activities, and the opportunity to stand and socialize with others upon entering or while waiting—for activities to begin, transportation for daily use or for special trips—is important for creating the connection with other patrons and staff. Providing inviting space that is dedicated to the broad demographic we are targeting for meeting, greeting and engaging will create the community and the 'home' that we want to offer and that will benefit so many more than we can today. As we move into the important DESIGN phase of the Senior Center project, we will be considering all of the elements that will make the building 'work' for seniors and the community—today and for the future. So read the newsletter, watch our *Seniorities* cable program, come to the Coffees, check the town/COA website, Scituate Council on Aging Facebook page and (new) Twitter account ☺—as we try to keep you informed of our progress and part of the process! This real plan for the Senior Center needs the votes of the community, so be a supporter, attend our events, and talk to your neighbors about the importance of the Senior Center—we need You!

Slideshow on Architecture of New England Churches 1680-1930

Presented by Bob Jackman

Across the nation there is strong admiration and deep respect for the architecture of New England churches. **On Wednesday June 20 from 1:00 to 2:30pm** a slideshow will be presented on the Architecture of New England Churches 1680-1930. Some fine South Shore examples will be noted, but we will also look wider across New England to survey the full range of structures. Depending upon a specific church under discussion, our overview will show interiors, exteriors or both. We will also take time to examine the placement at a specific location, and its relation to sightlines created by landscaping and other buildings. The speaker will be antiques writer Bob Jackman. If you have an image of a specific church, bring it to the show, and Bob will be happy to offer comments. While the talk will be organized around a sequence of 70 slides, the atmosphere will be informal with questions and answers throughout the presentation. Expect to learn a bit, share some laughs, and have a good time. Fee \$4. Please sign up at 781-545-8722.
